I would like to start by saying that this year's budget is truly a team effort. Since I was new to the office I wanted to understand how the budget process worked from the inside out. This was accomplished by working closely with the County Administrator, the Treasurer and the Department Heads and their teams. In the past, we (the supervisors) attended budget workshops and were able to discuss budget requests once they were submitted and make recommendations, but this was done without the benefit of seeing a balanced budget that remained under the tax cap. This year, the County Administrator and I met with every Department head in advance of the workshops which allowed us to understand why they had made the requests and to show them the impact of their requests on the overall budget.

The most significant change that resulted from these meetings was the addition of a column on the budget worksheet titled "Budget Officer's Recommendation." These numbers represent an amount agreed upon by the budget officer, the County Administrator and the Department Heads demonstrating the necessary adjustments to their requests (so we remain under the NYS tax cap) as feasible operating costs. I feel this provides you with a clearer view of each department's budget and the impact it has on the overall budget. This allows for informed comments and recommendations for all proposed changes. Many Supervisors and Department Heads commented that this was very beneficial to them.

Earlier this year our Treasurer presented his "Annual Financial Report." This report mentioned many of the economic factors that impact our County's budget. Some of these were trending downward while others remain flat. He

also pointed out that our fund balance is shrinking. This caused me pause while contemplating next year's budget.

The 2019 tentative budget that is presented today reflects my input as well as your concerns from the budget workshops. The major changes in this year's budget are:

- Reduction of the dependency on fund balance by \$760,000
- Restoring \$550,000 in road paving funds from 2018
- Includes all personnel increases deemed necessary by the Board of Supervisors
- Includes all non-union pay raises (2.5%) and exempt salary adjustments

This tentative budget and the onetime revenues received this year (see Appendix for listings) will allow for the development and implementation of the "5 Year Capital Spending Plan." This is an opportunity we have been waiting for which is long overdue.

Of course, there are always unknowns that can impact our proposed budget. For example, one challenge facing us is the numerous changes we have had to adapt to in the court system over the past several years. Beginning with the Hurrell-Harring lawsuit and ruling, the "First Arraignment" requirement came into effect. More recently, "Raise the Age" legislation, initiated in October 2018, could have a financial impact on our 2019 budget even with promises of state funding to support it. Regardless of funding, there is some residual cost to the County for these mandated programs. We have discussed this in Committee meetings on many occasions.

As I said, this budget was a team effort. I cannot emphasize that enough. I would like to thank Debbie Prehoda, Sandy Huffer and Stacey Benson-Doty for their support. They have trained me well. Next, I would like to thank Al Nolette whose door was always open and who is always there to answer all my questions. I appreciate the willingness of the Department Heads to work with me to make compromises for the good of the County taxpayers. Last, but not least, I would like to thank our County Administrator, Chris DeBolt, who worked tirelessly to answer questions and guide me through the budget process. He went above and beyond the call of duty. Thank you all.

Finally, I would like to thank the supervisors for their support. I believed I could make an impact at the County level, and you provided me the opportunity to do just that. Developing a balanced budget was a huge challenge and one that had given me the opportunity to learn in many ways.

Tentative Budget Summary

- 1.12% decrease in appropriations
- 2.02% increase in tax levy
- \$550,000 in funds restored to road paving from 2018.
- \$760,000 reduction in fund balance usage (General Fund)
- Allows for discussion and possible implementation of the 5-Year Capital Spending Plan
- Built in safety net of a projected \$500,000 (unbudgeted revenue from NYCLASS interest to be used for 5 Year Plan if not needed)
- Starting in 2020, the .25% mortgage tax increase is needed to address the SUNY Adirondack tax cap shortfall.
- Starting in 2022, the approximate \$300,000 annual PVI legacy cost shortfall must be addressed.
